PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years on iGaming products, e-commerce and internal tools. I build multi-tenant web platforms that give each operator its own brand from one codebase. Core stack: Angular, TypeScript, Node.js, MongoDB, Vitest and Docker.

PROFESSIONAL EXPERIENCE

ZGames Technology, *Technology for the iGaming industry*

Manta, Ecuador, on-site

Full Stack Developer

July 2023 – Present

- Lead the frontend architecture of the multi-tenant iGaming public portal with design token theming, supporting 50,000+ registered player accounts on its primary operator.
- Structured the base component system and design token governance, mentoring the team through code reviews (PRs) and enabling the full backoffice frontend migration (~12 modules) in 1 month.
- Developed casino and sportsbook provider integration services in Java (Spring Boot) and Node.js, validating financial flows prior to operator certification.
- Engineer backend services in Node.js and TypeScript with MongoDB queries and Redis caching for reports, user management, transactions, and configurations.
- Implemented observability with Seq for deposit/transaction failure correlation, provider downtime alerts, and critical endpoint traceability.

Angular, TypeScript, RxJS, NgRx, Signals, Node.js, Spring Boot, Java, MongoDB, PostgreSQL, Redis, Seq.

Tecnored, *Online retailer of technology equipment*

Remote, on demand

Freelance Full Stack Developer

October 2025 – August 2026

- Built the online store and its admin panel with PHP and JavaScript.
- Designed a Python ETL pipeline syncing ~5,800 products in batches of 500 records every ~13 minutes from SQL Server to MySQL without disrupting the legacy system.
- Added bulk import for products, prices and offers from a spreadsheet, through the Google Sheets API.

Empresa Pública Aguas de Manta, *Municipal water and sanitation utility*

Manta, Ecuador, on-site

Web Development Intern

May 2023 – June 2023

- Added user authentication with OpenID Connect, delegating identity verification to an external provider.
- Integrated Mapbox so the application could display geographic data.

Universidad Laica Eloy Alfaro de Manabí, *Public university in Manta, Ecuador*

Manta, Ecuador, on-site

Teaching Assistant, Mobile Applications

October 2022 – January 2023

- Planned the contents of the course across the term.
- Prepared and delivered the classes on mobile development with Flutter and React Native, including the research and the supporting material for each session.
- Reviewed the code students submitted and gave them feedback on their implementations.

EDUCATION

Master's Degree in Web User Interface Design and Development

Spain, remote

Universidad Internacional de La Rioja (UNIR)

February 2025 – May 2026

Bachelor's Degree in Information Technology Engineering

Ecuador, on-site

Universidad Laica Eloy Alfaro de Manabí

April 2019 – August 2024

TECHNICAL SKILLS

Frontend: Angular, TypeScript, RxJS, NgRx, Signals, React, Storybook.

Backend: Node.js, Spring Boot, Java, Python, PHP.

Databases: PostgreSQL, MongoDB, MySQL, Redis.

Testing & DevOps: Vitest, Testing Library, Docker, GitHub Actions, Seq, DigitalOcean.

Certification: Continuing Education Certificate in Leadership, MIU City University Miami.

Languages: Spanish native, English B2.
